Standalone Questions

Questions:

1. If a number is greater than 50, add 10 to it. Otherwise (if it is 50 or less), subtract 5 from it. What is the result for the number 55?
 - Option A 65
 - Option B 50
 - Option C 60
 - Option D 45
2. A fruit is considered "ripe" if its color is red AND its size is large. If its color is red OR its size is large (but not both), it is "almost ripe". Otherwise, it is "unripe". A fruit is red and small. What is its status?
 - Option A Ripe
 - Option B Almost ripe
 - Option C Unripe
 - Option D Overripe
3. A student passes an exam if their score is 75 or more. If they score between 50 and 74 (inclusive), they need to re-appear. If they score less than 50, they fail. A student scores 68. What is the outcome?
 - Option A Pass
 - Option B Fail
 - Option C Re-appear
 - Option D Excellent

4. If today is Monday, then tomorrow is Tuesday. Otherwise, if today is Saturday, then tomorrow is Sunday. In all other cases, tomorrow is a weekday. If today is Wednesday, what is tomorrow?
- Option A Tuesday
 - Option B Sunday
 - Option C Thursday
 - Option D Monday
5. A toy costs *Rs* 120. If a customer buys 2 or more toys, they get a *Rs* 10 discount per toy. If they buy less than 2 toys, they get no discount. How much will a customer pay if they buy 3 toys?
- Option A *Rs* 360
 - Option B *Rs* 350
 - Option C *Rs* 330
 - Option D *Rs* 390
6. Consider a number. If it is an even number AND it is less than 20, then multiply it by 2. Otherwise, if it is an odd number AND greater than 10, then add 5 to it. In all other scenarios, subtract 1. What is the result for the number 16?
- Option A 32
 - Option B 15
 - Option C 21
 - Option D 17
7. A child gets extra playtime if they finish their homework AND clean their room. If they finish only one of these tasks, they get regular playtime. If they do neither, they get no playtime. The child finished homework but did not clean the room. What kind of playtime do they get?
- Option A Extra playtime
 - Option B Regular playtime
 - Option C No playtime
 - Option D Half playtime

8. If an animal has feathers, it is a bird. If it has fur AND lays eggs, it is an echidna. Otherwise, if it has fur AND gives birth to live young, it is a mammal. What kind of animal is one that has fur and gives birth to live young?
- Option A Bird
 - Option B Echidna
 - Option C Mammal
 - Option D Reptile
9. A bookstore offers special prices. If a book costs more than *Rs* 500, its price is reduced by *Rs* 100. If a book costs between *Rs* 200 and *Rs* 500 (inclusive of *Rs* 200 but not *Rs* 500), its price is reduced by *Rs* 50. Otherwise, the price remains the same. What is the final price of a book that originally costs *Rs* 450?
- Option A *Rs* 350
 - Option B *Rs* 400
 - Option C *Rs* 450
 - Option D *Rs* 550
10. A number is considered "special" if it is a multiple of 5 OR a multiple of 7. Otherwise, it is "ordinary". Is the number 21 special?
- Option A Yes, because it is a multiple of 5.
 - Option B Yes, because it is a multiple of 7.
 - Option C No, it is ordinary.
 - Option D Yes, because it is a multiple of both 5 and 7.
11. A movie ticket costs *Rs* 100. If it's a weekend AND the movie is 3D, the price is *Rs* 150. If it's a weekday AND the movie is 2D, the price is *Rs* 80. Otherwise, the price is *Rs* 100. What is the price of a 3D movie ticket on a Wednesday?

- Option A *Rs 150*
- Option B *Rs 80*
- Option C *Rs 100*
- Option D *Rs 120*

12. If a geometric figure has 3 sides, it's a triangle. If it has 4 sides AND all sides are equal, it's a square. If it has 4 sides AND opposite sides are equal but not all sides are equal, it's a rectangle. Otherwise, it's a polygon. What is a figure with 4 sides where only opposite sides are equal?

- Option A Triangle
- Option B Square
- Option C Rectangle
- Option D Polygon

13. A student gets a sticker if they answer 5 questions correctly. If they answer 3 or 4 questions correctly, they get a star. Otherwise, they get nothing. If a student answers 4 questions correctly, what do they get?

- Option A Sticker
- Option B Star
- Option C Nothing
- Option D Prize

14. A plant needs watering if the soil is dry OR if it hasn't rained for 3 days. Otherwise, it does not need watering. The soil is wet, but it hasn't rained for 4 days. Does the plant need watering?

- Option A Yes
- Option B No
- Option C Maybe
- Option D Only if it is sunny

15. A number is "lucky" if it is greater than 100 AND is an even number. If it is less than 50 AND is an odd number, it is "unlucky". Otherwise, it is "neutral". Is the number 102 lucky, unlucky, or neutral?

- Option A Lucky

- Option B Unlucky
- Option C Neutral
- Option D Not applicable

16. If a child's age is between 6 and 10 (inclusive), they can ride the small roller coaster. If their age is 11 or more, they can ride the big roller coaster. If their age is less than 6, they cannot ride any roller coaster. A child is 9 years old. Which roller coaster can they ride?

- Option A Big roller coaster
- Option B Small roller coaster
- Option C Both roller coasters
- Option D No roller coaster

17. A shop offers a special deal. If you buy items worth more than *Rs 200*, you get a free pen. If

you buy items worth exactly *Rs 200*, you get a free eraser. If you buy items worth less than

Rs 200, you get nothing. If you buy items worth *Rs 250*, what do you get?

- Option A Free pen
- Option B Free eraser
- Option C Nothing
- Option D Free notebook

18. Consider the following rule for assigning points: If a task is completed on time, you get 10 points. If it's completed late BUT within 24 hours, you lose 3 points. Otherwise, you get 0 points. A student completes a task 10 hours late. How many points do they get?

- Option A 10
- Option B 7
- Option C 0
- Option D -3

19. A pizza shop has a rule for toppings: If a pizza has cheese AND mushrooms, it costs *Rs 300*

. If it has cheese OR mushrooms (but not both), it costs *Rs 250*. If it has neither, it costs

Rs 200. A customer orders a pizza with only cheese. What is the cost?

- Option A *Rs 300*
- Option B *Rs 250*
- Option C *Rs 200*
- Option D *Rs 350*

20. A traffic light follows these rules: If the light is red, cars must stop. If the light is yellow AND a car is already in the intersection, it can proceed. If the light is yellow AND a car is NOT in the intersection, it must stop. If the light is green, cars can go. The light is yellow, and a car is approaching the intersection but not yet in it. What should the car do?

- Option A Stop
- Option B Go
- Option C Speed up
- Option D Wait for red

Answers:

1. Option C
2. Option B
3. Option C
4. Option C
5. Option C
6. Option A
7. Option B
8. Option C
9. Option B
10. Option B
11. Option C
12. Option C
13. Option B
14. Option A
15. Option A
16. Option B

- 17. Option A
- 18. Option B
- 19. Option B
- 20. Option A
